

FZ Intensive Cleaner

Extra strong cleaner for porcelain tiles

Description

A special product from the LITHOFIN-Range for fully vitrified ceramic and porcelain tiles (FZ). Lithofin FZ Intensive Cleaner is a strong alkaline product based on highly active and biologically degradable components.

Technical data:

Density: approx. 1,1 g/cm³

Appearance: liquid, yellowish

Odour: pleasant

pH-Value: >12

Flash Point: >65°C

Solubility in Water: --

Properties

Lithofin FZ Intensive Cleaner dissolves and removes stubborn engrained dirt, oil and grease residues, areas subject to heavy foot traffic, rubber, care product residues, etc.

Field of use

For basic and thorough cleaning of surfaces where care with Lithofin FZ Cleanser is not sufficient and for regular use on surfaces subject to heavy wear and tear. Suitable for all polished and unglazed porcelain tiles. Successfully cleans grout lines.

Directions for use

Dilute Lithofin FZ Intensive Cleaner up to 1:10 with cold or lukewarm water and distribute evenly on the surface with a brush or scrubber. Allow the product to work for 10 to 20 minutes, brushing occasionally with a brush or broom and not allowing the product to dry. Remove from the surface with a cloth or with a wet and dry vacuum. If you are not satisfied with the result, repeat this procedure either with a stronger concentration or with longer working times. Do not allow the product to dry on the surface, if necessary add some water and brush. Rinse the surface thoroughly with clear water.

Please note: Do not use on polished marble and other surfaces sensitive too alkaline. Always test this product in an inconspicuous area prior to use.

Coverage: As supplied: approx. 10 to 15m² per litre, depending on level of dirt. Diluted: Up to 200m² per litre.

Storage

Keep closed, cool and dry. Shelf life of up to 5 years.

Environmental protection

Surfactants are biologically degradable in accordance with EU-regulations.

Disposal: Diluted product may be added to waste water. Containers are made of environmentally friendly polyethylene (PE). Clean containers can be recycled through collection systems.

Safety

Contents: Non-ionic surfactants (<10%); 2-propanole (<10%); ethylene glycol monobutyl ether, butylcellosolve (<10%); potassium hydroxide (<10%); sodium hydroxide (<10%); auxiliary agents.

Risk and safety phrases: Causes burns. Keep locked up and out of the reach of children. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Wear suitable protective clothing, gloves and eye/face protection. In case of accident or if you feel unwell, seek medical advice immediately and show the label or container.

First aid procedures: In case of inhalation, seek fresh air. In case of contact with skin wash off immediately with soap and water. In case of contact with eyes rinse thoroughly with plenty of water and seek medical advice. Do not induce vomiting. If swallowed drink plenty of water and seek medical treatment.

Emergency procedures: In case of spill or other release, soak up with absorbent material (e.g. sand, sawdust, and general-purpose binder). Ensure adequate ventilation. Product does not burn, fire-extinguishing activities according to surrounding.

Additional information: Is listed on the Material Safety Data Sheet.

ADR2003:

Caustic alkali liquid, n.o.s.

UN 1719, Class 8

Packaging Group III

Packaging

1 litre bottle with child-proof cap (12 per box)

5 litre canister (4 per box)

Please Note: statements concerning environmental and safety issues refer to the product as delivered (concentrated).

This information should be considered to be informal and non-binding. The products must be used according to local conditions and materials. Where no previous experience is available, or in cases of doubt, test the product in an inconspicuous area. (AU11.03gps/11.02)
