

KF Power-Clean

Intensive cleaner for ceramics, quarry tiles and terracotta

Description

A special product from the LITHOFIN-Range for ceramics, quarry tiles and porcelain (KF). Lithofin KF Power-Clean nearly odourless cleaning concentrate is free of solvents and alkaline based. The product contains a balanced combination of strong cleaning compounds, which allow for efficient and economical cleaning.

Technical data:

Density: approx. 1,0 g/cm³

Appearance: liquid, yellowish

Odour: unspecific

pH-Value: approx. 11

Flash Point: n.a.

Solubility in Water: complete

Properties

Lithofin KF Power-Clean dissolves and removes oily and greasy dirt deposits, care product and sealant residues, light wax films and stubborn general dirt.

Field of use

For thoroughly cleaning used or exceptionally dirty surfaces, for removing care product residues and for occasional cleaning of surfaces subject to heavy wear and tear. Suitable for all ceramic and quarry tiles, terracotta, clay tile and brick surfaces. Successfully cleans grout lines.

Directions for use

Depending on the stubbornness of the dirt, dilute Lithofin KF Power-Clean up to 1:10 with water and wipe the surface with the solution. In case of extremely stubborn dirt deposits apply undiluted and distribute with a scrubber. Allow the product to work for 10 to 20 minutes, brushing well and then remove from the surface with clear water. On large surfaces, we recommend using a squeegee or a wet and dry vac for removing the product residues. Rinse well with clear water. Do not allow the product to dry on the surface, add some water and scrub if necessary. In stubborn cases, this procedure may have to be repeated.

Please note: Avoid splashes on sensitive materials such as lacquer, varnish, wood, wallpaper, etc. We highly recommend testing this product in an inconspicuous area prior to use.

Coverage:

approx. 5 to 10m² per litre depending on dirt, above 30m² per litre when used diluted.

Advice: For removing wax layers and the like, we recommend Lithofin WAX-OFF. For cement and grout residues use Lithofin KF Cement Residue Remover.

Storage

Keep closed and cool. Not above 25°C.

Shelf life of up to 3 years.

Environmental protection

Surfactants are biologically degradable in accordance with EU-regulations. Free of phosphates.

Disposal: Diluted product may be added to waste water. Containers are made of environmentally friendly polyethylene (PE). Clean containers can be recycled through collection systems.

Safety

Contents: 2-propanole (<10%); ethylene glycol monobutyl ether (<10%); sodium-carbonate (<10%); auxiliary agents.

Risk and safety phrases: Irritating to eyes.

Keep out of the reach of children. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. If swallowed, seek medical advice immediately and show this container or label.

First aid procedures: Remove contaminated soaked clothing immediately. In case of inhalation, seek fresh air. In case of contact with skin wash off immediately with soap and water. In case of contact with eyes rinse thoroughly with plenty of water and seek medical advice. In case of ingestion, do not induce vomiting. If swallowed by plenty of water and seek medical treatment.

Emergency procedures: In case of spill or other release, soak up with absorbent material (eg. sand, sawdust, and general-purpose binder). Ensure adequate ventilation. Product does not burn, fire-extinguishing activities according to surrounding.

Additional information: Is listed on the Material Safety Data Sheet.

ADR2003: Not a dangerous good.

Packaging

500ml bottle with child-proof cap (10 per box)

1 litre bottle with child-proof cap (12 per box)

5 litre canister (4 per box)

Please Note: statements concerning environmental and safety issues refer to the product as delivered (concentrated).
