

MN Easy-Clean

Regular maintenance for natural and engineered stone tops

Description

A special product from the LITHOFIN-Range for marble, natural and engineered stone (MN). Lithofin MN Easy-Clean is a mildly alkaline, ready-to-use cleaning product, streak less, based on high quality natural soaps and special cleaning and care agents.

Technical data:

Density: ca.1.0 g/cm³

pH-Value: ca. 8

Appearance: liquid, colourless, clear

Odour: fresh, perfumed

Solubility in Water: good, complete

Properties

Highly active ingredients quickly dissolve dirt, oil and grease, leaving the surface streak less and hygienically clean when wiped off. Additives are designed not to affect the protective properties of an impregnator. The surface will therefore remain free of stains for a long time. Lithofin MN-Easy-Clean leaves a pleasant odour.

Please note: Lithofin MN Easy-Clean maintains and supports the effectiveness of the protective treatment on surfaces impregnated with Lithofin MN Stain-Stop and Lithofin Stain-Stop >W<. Made for natural and manufactured stone tops, safe in all food preparation areas.

Field of use

For regularly everyday cleaning all natural and engineered stone surfaces such as kitchen work tops, vanities, table tops and sanitary areas. Highly suitable for marble and limestone. Also suitable for ceramics, glass, stainless steel, laminex and synthetic surfaces. Ideal for quick, once-over cleaning.

Directions for use

Spray Lithofin MN Easy-Clean on the entire surface. After allowing the product to work for a few minutes, wipe it off the surface with a cleaning cloth. Possibly wipe again with a dry cloth.

Please note: Do not spray on hot surfaces.

Coverage: Up to 20m² 500 ml.

Please note: We recommend Lithofin MN Power-Clean for encrusted and heavy dirt deposits.

Storage

Cool and closed. Not above 25°C. Shelf life of up to 3 years.

Recommendation

Natural stone floors should be wiped regularly. The following method is highly recommended, especially on polished marble:

When wiping, use a squirt of Lithofin MN Easy-Care in the warm water. Every fourth time use Lithofin MN Care-Sheen instead.

Environmental protection

The contained surfactants are biologically degradable according to EU-regulations. Does not contain any phosphates.

Disposal: Diluted product may be added to waste water. Containers are made of environmentally friendly polyethylene (PE). Clean containers can be recycled through collection systems.

Safety

Contents: Amnionic surfactants; auxiliary agents.

General information: Suitable for use in areas where food is handled. The LGA in Nuremberg confirms that there are no health concerns.

First aid procedures: In case of contact with eyes rinse thoroughly with plenty of water and seek medical advice. In case of ingestion, do not induce vomiting. If swallowed drink plenty of water and seek medical treatment.

Emergency procedures: In case of spill or other release, soak up with absorbent material (eg. sand, sawdust, and general-purpose binder). Product does not burn, fire-extinguishing activities according to surrounding.

Additional information: Is listed on the Material Safety Data Sheet.

ADR2003: Not a dangerous good.

Packaging

500ml bottle with sprayer (10 per box)

1 litre refill bottle with child-proof cap (10 per box)

Please Note: statements concerning environmental and safety issues refer to the product as delivered (concentrated). This information should be considered to be informal and non-binding. The products must be used according to local conditions and materials. Where no previous experience is available, or in cases of doubt, test the product in an inconspicuous area. (AU11.03gps/4.03)
