

## Removal of Stains from All Natural Stone, Terrazzo Style Materials and Engineered Stone

The listed types of stain can be removed with the following LITHOFIN products. Many stains disappear entirely with a single treatment, whereas with other stains there will still be residual marking even after repeated application.

### Explanation

∞ product is recommended

∅ apply if no success with the recommended products.

\*1 do not apply to polished or finely honed marble, limestone or terrazzo style materials

\*2 to help with a scraper, white nylon pad, brush etc.

\*3 ensure that the product doesn't damage or alter the appearance of the material.

This information is provided without any commitment. The use of the product is to be adapted to suite the local circumstances and the surface requiring treatment. In all cases of doubt, test the product first in an inconspicuous area.

Algae & Moss	∞ Lithofin ALGEX *2 ∅ Lithofin KF Mildew-Away *3*2	Mortar Residue	∞ Lithofin MN Builders-Clean *1*2
