

Removal of Stains from Porcelain, Ceramic, Quarry and Terracotta Tiles

The listed types of stain can be removed with the following LITHOFIN products. Many stains disappear entirely with a single treatment, whereas with other stains there will still be residual marking even after repeated application.

Explanation

∞ product is recommended

∅ apply if no success with the recommended products.

*1 to help with a scraper, white nylon pad, brush etc.

*2 ensure that the product doesn't damage the stone's appearance.

This information is provided without any commitment. The use of the product is to be adapted to suite the local circumstances and the surface requiring treatment. In all cases of doubt, test the product first in an inconspicuous area.
